

TANZANIA WOMEN VS UGANDA WOMEN MATCH ANALYSIS

PLAYED ON 16/12/2023

KEY GAME CHANGING MOMENTS:

1. 2 run-outs in the same over (Over 15) – Saum and Neema.
2. Janet Mbabazi's fierce 2 Overs, in which she got 2 wickets in the 16th over (Hudaa and Perice) and 1 run-out in the 15th Over (Saum).
3. Agnes' 4th Over not bowled, leading to Saum bowling the last over, which went for 13 runs.
4. 2 consecutive overs in which we lost 2 wickets.

BOWLING:

1. After 6 overs, they were 6/3 – 21 runs less than the tournament average.
2. In the last 7 overs, they got 58 runs – 20 runs more than the tournament average. This allowed them to cover up their bad performance in the powerplay.
3. The average 1st Innings Total in that tournament was 93. So, their score of 99 was above par.

BATTING:

1. Our average and strike rate in the powerplay was great.
2. Our strike rate from overs 7-13 was 56. The tournament's average 2nd Innings Strike Rate was 77. This means that we failed to make the most out of our good start.
3. From overs 12-16, we lost 5 wickets and got 21 runs.
4. We never batted more than 10 overs in each of the first 2 games.

WHAT COULD WE HAVE DONE BETTER?

1. Bowled Agnes' 4th over instantly.
2. Avoided the second run-out of Neema in the same over.
3. Saum could've been more aggressive after 6 overs.
4. Maybe bowled better in the death, but batter could have played very well so can't be sure.
5. Save wickets and read the game situation – Getting 2 overs with 4 runs is better than 2 overs with 4 wickets.
